

SRE-2010 Electra-Ride™ Elite Manual or Power Folding Rails

There are no obstructions with the optional Folding Rail

With the rail unfolded, you will have a standard seat position at the lower landing.

Folding Rail Options Provides Ideal Solution

A narrow hallway or doorway at the bottom of your stairs does not preclude the installation of the handsome Electra-Ride Elite. Simply include the optional Folding Rail, and any tripping hazard vanishes!

The folding rail can be ordered for feather-light manual operation or push button automatic power operation. The bottom section of rail moves up and out of the way. Simple, convenient, effortless.

A third charging station allows you to charge the Elite at the top, bottom and even when the rail is folded.
