Bathrooms With Tomorrow In Mind

Bathroom design is changing as our population changes. Universal Design provides luxury and convenience for the bathroom needs of everyone in the family especially the elderly and disabled. Barriers are everywhere, including tight showers with high thresholds, high tub walls, difficult

doorways and uneven surfaces with slippery floors.

Low-Curb or No-Curb Barrier Free Showers and Baths include all-natural flooring and custom tile for seamless, non slip use. Dual custom adjustable shower heads, grab bars, raised toilet seats and bath safety products are solutions that will prevent accidents and improve the functionality of your bathroom.

see and try amazing solutions to mobility challenges. Our professionals will be here to answer any questions.

Testimonials of Life-Changing Products & Solutions Provided by Accessible Systems, Inc.

"Completely satisfied with the quality of the equipment, quality of the installation, knowledge, ability and professionalism of the work crews. They went out of their way to correct a problem which increased safety and ease of use of the stairlift. Accessible Systems impresses me as experts and help people in need to regain their mobility, increase their quality of life and help rebuild their self-respect." Thanks for everything, Bill & Maria Noonan

"By the way of reference I wish to inform anyone that is intending to research whether or not they will utilize the services of Accessible Systems that they are about to have one of the finest experiences in working with an outstanding group of individuals that I have ever had the opportunity to associate with. From the start of the first visit to the installation it was

very smooth. Time estimates were accurate, expectations were properly set and any suggestions were handled smoothly. It was evident that a wealth of experience was in place with all individuals. Thank you for your fine service." Sincerely, Allan D. Goodwin

Facts Concerning Our Disabled & Aging

- More than 40 million Americans currently live with disabilities or functional limitations...nearly one in three Americans lives are affected by a disability or functional limitation in some way.
- 2008/2009 Universal Design Trend: Adapting your home with Universal Design gives SAFE accessibility to all areas of your home.
- More than 72% of Baby Boomers are homeowners.
- According to a recent AARP survey, among respondents 55 and older, 89% said they wanted to stay in their own homes as they age, even if it meant planning to remodel with an eye toward their later years.
- Every 18 seconds an older adult is in the emergency room because of a fall.
- Every 35 minutes an older person dies because of a fall.
- Between 2007 and 2015, the number of Americans ages 85 and older is expected to increase by 40%.
