MONTHLY PERSPECTIVE:

Dorothy Knows, 'There is No Place Like Home', Do You?

Dorothy said it best, 'there is no place like home'. After a slip, fall or a trip to a rehab center or hospital, most Americans wish that by only three clicks of their heels it would take them home and return everything to normal.

Occupational and physical therapists help individuals go home after injury by recommending changes to the home for safety & function. However, most often these recommendations are made AFTER an individual experiences a life changing event.

During this transition phase, people have a more open mind about exploring the solutions to promote safety and barrier free living. Why wait until AFTER a trip to the hospital?
