GREATITUDE STORIES :

"SPRING GROWS WISDOM"

Pima OTA Students Day at Accessible Systems

"Thank you for allowing us to come and tour your accessible house. The knowledge we received is invaluable to our future endeavours," the Occupational Therapy Assistant (OTA) Pima Medical Institute Class of 2013.

Do you have a health condition that is affecting your ability to carry out activities around the house? Are you wondering how much longer you are going to be able to live in your house? Are you afraid of falling?

Nathan Colburn Teaching about Barrier Free Bathrooms

SAFETY SOLUTIONS

Custom Steel railings

MOBILITY SOLUTIONS

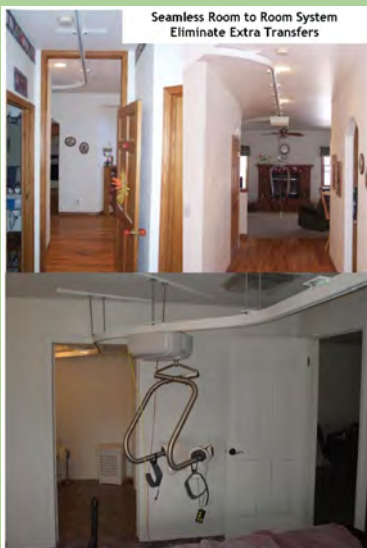

Straight & Curved Stairlifts

Scoters/Wheelchairs

MOBILITY SOLUTIONS

These are all common question's that an occupational therapist might ask a client. Their job is to make an assessment of a client's ability to perform every day activities such as climbing stairs, getting into the shower, or reaching into kitchen cabinets.

Once a year we at Accessible Systems get the opportunity to educate upcoming OTA graduates about home modification solutions. During the day in the field at Accessible Systems they get to be put in the shoes of a client and use a wheelchair up and down a ramp, ride a stair-lift, use a ceiling lift, see an accessible kitchen, bathroom and work all the assistive technologies.

Smiling Faces While Learning About the Weightless Ceiling Lift

This opportunity is nothing less than fulfilling because we get to see those minds in action. The passion and caring can be seen in their faces and in their questions. These students grow wiser and prepare themselves for the future of helping people live safely and independently.

Ceiling Lifts

We Can Do It!

This month our GREATITUDE story goes to the
Occupational Therapy Assistant Students of 2013!

Have a gratitude story to share?
