

# BATHROOM REMODELING

## Custom Bathroom Remodeling

Custom Bathroom remodeling includes everything from doors, to floors, to showers, tubs, walk in tubs, walk in shower, custom vanities, and beautiful accents. We also provide and install professional grade plumbing, shower and tub valves, sinks, and countertops. With our Custom Remodeling, you can create the home of your dreams.

We specialize in designing unique accessible bathrooms and showers that are safe, functional and attractive. Our unique process starts with a free home consultation. In most cases we can transform a standard 5' x 10' bathroom making it more accessible by removing a tub and recessing a toilet into a wall. In other cases we may take space from an adjacent bedroom or maybe closet.

### Barrier-Free

Open concept bathrooms offer state-of-the-art features. With floors sloped to drains, zero threshold shower and shower doors can disappear, creating barrier-free bathrooms. Accessible showers not only create beautiful spaces, they also provide freedom and security to individuals with limited mobility, or homeowners wanting to age in place. This combination of style and accessibility provides greater value to a bathroom, where today's barrier-free bathroom built for its design, will continue to provide homeowners with independence in the future.

### Who Does the Work?

All of the work is done by our full time team members who are Shluter Systems certified installers. A project manager is assigned to a project who would be in charge of communicating and making sure that the project is done on budget and time.

## WE ARE LICENSED CONTRACTORS!

### Walk In Tubs

#### Remove Obstacles and Add Independence

A Walk in Tub offers 2 important benefits for your bathing needs. First, a Walk in Tub has an easy low threshold entrance that adds safety and convenience as you enter the tub. Second, a Walk in Tub provides hydrotherapy which improves your health with heat, pain relief, and enhanced circulation.

With air and water jets, this hydrotherapy will relax your muscles and joint while reducing swelling. With a comfortable seat, easy to use handheld shower, and beautiful fixtures, your Walk in Tub will make your bathroom a spa.

Accessible Systems offers highest quality walk-in tub models. Our Walk in Tubs are an accessible bath tub that offer the therapeutic benefits of a spa. Enjoy a step in tub that provides the best of air and water jet therapy, as well as high quality construction and a full warranty.

We have 16 models that provide different sizes, different options that will fit your bathroom, and fit you.

# EURO STYLE BATHROOMS

## Euro Style Showers

Euro Style Showers feature an open concept floor plan with a Zero Threshold that is level with the bathroom floor. This creates a bigger bathroom and shower with custom features. Many contractors will install a shower on top of your existing floor which creates a step or barrier. After many years of experience, we have developed 2 options, our Onyx Solid Surface shower base, and our Custom Tile shower base.

Euro Style Showers feature an open concept floor plan with a Zero Threshold that is level with the bathroom floor. Many contractors will install a shower on top of your existing floor which creates a step or barrier.
