

# SHOWERBUDDY SB1

## ShowerBuddy SB1

The ShowerBuddy SB1 shower transfer system will turn your existing bathroom into an accessible bathroom that allows you to enjoy showering again without the excessive cost, delay and stress of a full bathroom remodel.

The ShowerBuddy SB1 alleviates heavy lifting and multiple transfers for toileting and showering. This chair is separated into three sections; rolling base (shower chair), bridge and shower base. The rolling base rolls around the house like a wheelchair allowing patient to easily transfer and then roll right over a toilet (certain toilets).

Once completed with toileting, the rolling base can connect to the bridge and then onto the shower base allowing the chair to slide into the shower. Once inside the shower, the bridge disconnects and the shower base turns allowing the user to face the shower controls.

The Showerbuddy system is made of aluminum which will not rust or corrode when in contact with water. Height adjustability on rolling base and shower base- allowing for use in a variety of shower stall sizes. Rolls over some toilets- allowing for "no mess" alternative to commode usage. Custom bridge sizes are available- allowing for use in a variety of bathroom sizes.

# TUBBUDDY SB2

## Tubbuddy SB2

The TubBuddy SB2 transfer system will turn your existing bath tub into an accessible bathroom that allows you to enjoy showering again without the excessive cost, delay and stress of a full bathroom remodel. The TubBuddy SB2 alleviates heavy lifting and multiple transfers for toileting and showering. This chair is separated into three sections; rolling base (shower chair), bridge and tub base. The rolling base rolls around the house like a wheelchair allowing patient to easily transfer and then roll right over most toilets. Once completed with toileting, the rolling base connects to a bridge and then onto the tub base allowing the chair to slide over the tub. Once over the tub, the bridge disconnects allowing the curtain to close.

- The TubBuddy SB2 system is made of aluminum which will not rust when in contact with water.
- Height adjustability on rolling base and tub base- allowing for use in a variety of tubs.
- Rolls over some toilets- allowing for "no mess" alternative to commode usage.
- Custom bridge sizes are available- allowing for use in a variety of bathroom sizes.

# SHOWERBUDDY SB2T

## ShowerBuddy SB2T

The TubBuddy with Tilt SB2T transfer system will turn your existing bath tub into an accessible bathroom that allows you to enjoy showering again without the excessive cost, delay and stress of a full bathroom remodel.

The TubBuddy with Tilt SB2T alleviates heavy lifting and multiple transfers for toileting and showering. This chair is separated into three sections; rolling base (shower chair), bridge and tub base. The rolling base rolls around the house like a wheelchair allowing patient to easily transfer and then roll right over most toilets. Once completed with toileting, the rolling base connects to a bridge and then onto the tub base allowing the chair to slide in a tilt position over the tub. Once over the tub, the bridge disconnects allowing the curtain to close .

- The TubBuddy with Tilt SB2T allows the chair to tilt while transferring over the tub preventing the caregiver lifting the patients legs over the tub.
- The system is made of aluminum which will not rust when in contact with water.
- Height adjustability on rolling base and tub base- allowing for use in a variety of tubs.
- Rolls over some toilets- allowing for “no mess” alternative to commode usage.
- Custom bridge sizes are available- allowing for use in a variety of bathroom sizes.
