

# BATHROOM REMODELING

## Custom Bathroom Remodeling

Custom Bathroom remodeling includes everything from doors, to floors, to showers, tubs, walk in tubs, walk in shower, custom vanities, and beautiful accents. We also provide and install professional grade plumbing, shower and tub valves, sinks, and countertops. With our Custom Remodeling, you can create the home of your dreams.

We specialize in designing unique accessible bathrooms and showers that are safe, functional and attractive. Our unique process starts with a free home consultation. In most cases we can transform a standard 5' x 10' bathroom making it more accessible by removing a tub. In other cases we may take space from an adjacent bedroom or maybe closet.

### Barrier-Free

Open concept bathrooms offer state-of-the-art features. With floors sloped to drains, zero threshold shower and shower doors can disappear, creating barrier-free bathrooms. Accessible showers not only create beautiful spaces, they also provide freedom and security to individuals with limited mobility, or homeowners wanting to age in place. This combination of style and accessibility provides greater value to a bathroom, where today's barrier-free bathroom built for its design, will continue to provide homeowners with independence in the future.

### Who Does the Work?

All of the work is done by our full time team members who are certified installers. A project manager is assigned to a project who would be in charge of communicating and making sure that the project is done on budget and time.

# WE ARE LICENSED CONTRACTORS!

## Walk In Tubs

Remove Obstacles and Add Independence

A Walk in Tub offers 2 important benefits for your bathing needs. First, a Walk in Tub has an easy low threshold entrance that adds safety and convenience as you enter the tub. Second, a Walk in Tub provides hydrotherapy which improves your health with heat, pain relief, and enhanced circulation.

With air and water jets, this hydrotherapy will relax your muscles and joints while reducing swelling. With a comfortable seat, easy to use handheld shower, and beautiful fixtures, your Walk in Tub will make your bathroom a spa.

Accessible Systems offers highest quality walk-in tub models. Our Walk in Tubs are an accessible bath tub that offer the therapeutic benefits of a spa. Enjoy a step in tub that provides the best of air and water jet therapy, as well as high quality construction and a full warranty.

We have 16 models that provide different sizes, different options that will fit your bathroom, and fit you.

# EURO STYLE BATHROOMS

## Euro Style Showers

Euro Style Showers feature an open concept floor plan with a Zero Threshold that is level with the bathroom floor. This creates a bigger bathroom and shower with custom features. Many contractors will install a shower on top of your existing floor which creates a step or barrier. After many years of experience, we have developed 2 options, our Onyx Solid Surface shower base, and our Custom Tile shower base. Both options have a Zero Threshold.

Our Euro Style showers can include a glass door or curtain as well as many other custom features. Call for your free evaluation.

**43% of homeowners are choosing to forgo a tub in their bathroom.**

*– According to Houzz*

# WALK-IN SHOWERS

## Walk-In Showers

Walk In Showers are larger and easier to use with custom finishes and features including no maintenance shower bases and walls. Our low threshold shower bases are convenient and offer many different sizes to fit your home.

## Options

- Shower Base: Onyx, Custom Tile
- Shower Walls: Onyx, Custom Tile
- Shower Seats
- Shower Heads and Hand Helds
- Doors & Enclosures: Frameless
- Handrails/Grab Bars
- Sink and Vanity
- Toilet and Bidet

# GRAB BARS

## Grab Bars = Safety

Sometimes we wait for the worst to happen before making decisions regarding our living environment and the obstacles that we face daily. Grab bars are a simple way to make your bathroom area a safer place.

Grab bars should be installed near the tub and shower and next to the toilet for a universally-safe bath. Whether it's for young children just starting to shower on their own, the elderly, or someone suffering from a sports injury or recovering from surgery, grab bars are simple to install and offer a huge helping hand. Especially if you have a senior in your life, this is the best safety device you can buy.

Falling is the leading cause of injury resulting in death among people 65 years and older, according to the National Center for Injury Prevention and Control.

## How Much Do We Charge?

We charge a flat fee for each grab bar. This includes a straight grab bar, stainless hardware and installation (2 grab bar minimum required).

## Deluxe Bars Available

White

Stainless

### White & Stainless Knurled Grab Bars

Comes in sizes:

- 12"
- 16"
- 18"

3. Corner Shelf
4. Corner Shower Seat
5. Serenaseat – Wall-Mounted Shower Seat
6. Shampoo Shelf
7. Soap Dish
8. Toilet Paper Holder
9. Towel Bar

# SUPERPOLE and SUPERBAR

## SuperPole

When it comes to innovative and adaptable home safety products that can be used anywhere in the house, the SuperPole is the industry leader. The SuperPole is a safety pole that can be easily installed between any floor and ceiling by simply turning a jackscrew.

The pressure created by the jackscrew is strong enough to support you, yet it does not typically require drilling holes into the floor or ceiling. This is ideal for relocating or removing the pole.

Also, it features a grip that provides comfort and an improved surface to grab onto. All its functionality is contained in a clean, modern design that blends into any room.

## Specs

**Pole Diameter:** 1.50"

**Floor to Ceiling Range:** 93–99" / 2362–2515mm  
(fits 8' / 244cm ceilings) Extensions up to 140'

**Weight Capacity:** 300lbs / 136kgs or 450lbs / 204kgs

## SuperBar

With the simple addition of the SuperBar, the SuperPole transforms into an even more versatile product with both horizontal and vertical support.

Additionally, with 8 locking positions around the SuperPole (one every 45 degrees), you can stay closer to your support as you move. Push, pull, or lean on the horizontal SuperBar – it offers support that is tailored to your needs.

## Specs

**Bar Length:** 16" / 406mm

**Bar Locking Positions:** 8 (every 45 degrees)

**Weight Capacity:** 300lbs / 136kg or 450lbs / 204kgs

Bar is height adjustable at time of installation

# PT RAIL ANGLED

PT Rail with Wall Plate

PT Rail Angled

Wall Plate

## PT Rail

PT Rail is the perfect toilet safety rail to provide support and comfort during transitional movements. Unlike other bathroom safety rails, the PT Rail is designed with an innovative offset rail to avoid wrist strain when you're sitting down or pulling yourself up from a seated position. The PT Rail is also easily stored; simply lift the rail until it is flush against your bathroom walls. The toilet safety rail also features strong compression hinges to keep the rail from falling, giving you support and security even when the rail is halfway up.

## Specs

**Rail Length:** 32" / 813mm

**Rail Angle Range:** 0–30 degrees

**Weight Capacity:** 400lbs / 181kgs

## PT Rail Angled

The PT Rail Angled for additional support when going up and down two or three stairs. It is great in the garage or at the front door. Like the PT Rail, it mounts to the wall and can be lifted out of the way when not in use. However, it can be adjusted between 0 and 35 degrees to suit the angle of the stairs it's mounted beside. It is powder coated so it handles the weather well.

# Share It Forward: Please Help Others Discover Accessibility

How hard was it for you to find Accessible Systems and your accessible home options? Most of our customers have a very difficult time finding accessible solutions for their home.

- Will you help your friends and family discover accessible options for their home?
- Will you share it forward to the people you know so they learn about their options to remain in the home they love?
- Will you share it forward by showing your home to your friends/visitors and in social media?

You will help others maintain their independence and freedom, prevent falls and injuries, and plan ahead to enjoy their home forever. Please give away this catalog or go to [www.shareitforward.info](http://www.shareitforward.info) to order a FREE catalog and help someone else.
